

Uniclass 2015

En – Entities Table v1.15

January 2020

General changes

We have had discussions with piling experts Keller Foundations, and as a result have added a new code for 'Pollution control entities'. We have also carried out an exercise to ensure that we are consistent in our classifications, and that the classifications are in accordance with Oxford Dictionaries (published online by Oxford University Press). This has involved the amendment of classifications, without changes to the codes.

See below for details.
